Proof. regular text □

Proof. This ends in a display

$$3^2 + 4^2 = 5^2. \qquad \square$$

Proof. This ends in a display

$$3^2 + 4^2 = 5^2.$$

more text

$$a = b \tag{2}$$
$$c = d \qquad \square$$

Proof. This ends in a display

$$3^2 + 4^2 = 5^2.$$

more text

$$a = b$$

abc □

Proof. This ends with

1. an
2. enumerated
3. list. □

Proof. This ends with

1. an
2. enumerated
3. list
4. ending in equation:

$$a = b \qquad \square$$

Proof. This ends with

1. an
2. enumerated
3. list.
